

## Features

- RS PRO and Little Giant dual-branded professional solution.
- Adjustable 5, 6, 7 and 8-tread ladder in one product.
- Suitable for safe use on stairs and sloping ground.
- Clean-touch anodised aluminium finish.
- Integrated moulded tool tray.
- Deep 100mm serrated anti-slip treads.
- Tip & Glide® wheels for easy transportation.
- Extra-wide base for increased stability.
- Comfortable standing platform design.
- Compatible with optional AirDeck® workstation and handrail accessories.

## RS PRO by Little Giant®

### Select Step® Adjustable Multi-Position Stepladder

RS PRO® is the own brand of RS. Combining quality, choice and value, RS PRO products are professionally approved and trusted by engineers worldwide. Little Giant® is a registered trademark of Little Giant Ladder Systems.

## Product Description

The RS PRO by Little Giant® Select Step® is an innovative adjustable stepladder that combines the trusted quality of RS PRO with Little Giant's industry-leading ladder technology. Designed for professional users, the Select Step® provides the versatility of a 5, 6, 7 and 8-tread ladder in a single product while offering safe operation on stairs and uneven ground.

Its adjustable design, extra-wide base and deep anti-slip treads provide enhanced stability and user comfort, making it suitable for a wide range of maintenance, installation and trade applications.

## Standards and Compliance

|                              |                              |

## Key Features Explained

### Adjustable Height Design

The Select Step® replaces multiple stepladders by providing four height configurations within a single product. Users can adjust between 5, 6, 7 and 8-tread working heights, improving flexibility and reducing equipment requirements.

### Staircase and Uneven Ground Capability

Unlike conventional stepladders, the Select Step® is designed for safe operation on staircases and sloping surfaces, making it ideal for maintenance and installation work in challenging environments.

### Enhanced Comfort and Stability

Deep 100mm serrated treads and a large standing platform help improve comfort during prolonged tasks, while the extra-wide base enhances overall ladder stability.

### Integrated Productivity Features

The built-in tool tray keeps essential tools close at hand, while Tip & Glide® wheels enable easier transportation between work locations.

## Safety Note

Always inspect ladder equipment before use and follow all applicable workplace safety procedures. Ensure the ladder is fully locked into position before climbing.
