CRC Leak Stop Spray Seal

I. Product Description

CRC Leak Stop Spray Seal is easy to use and provides a waterproof seal to almost any surface. Bridging gaps and cracks, it offers a flexible, durable, long lasting solution to leaks. The 360° spray system allows the can to be used at any angle, ideal for hard to reach places.

Once fully cured CRC Leak Stop Spray Seal will be translucent. The longevity of this seal can be improved by coating with any paint finish.

II. Features & Benefits

- Translucent finish.
- 360° spray system allowing for use at any angle.
- Touch dry in 15-30min.

III. Application Directions

Read Entire Label Before Use

1. Remove dirt, debris, loose rust and any pooled water from surface to be sealed.
2. If required, mask surrounding areas to avoid over spray.
3. Shake can until agitator ball is moving freely and then for at least one further minute to ensure content is thoroughly mixed.
4. Spray 10-20cm from surface, applying a smooth even coating.
5. Allow to dry for 15min before applying subsequent coats, repeat this process until you have a thick seal. For wider gaps and cracks multiple applications will be necessary to achieve sufficient coverage.
6. When finished spraying, wipe nozzle clean. If clogging occurs, remove button, clean slot and orifice with wire and replace carefully.

IV. Typical Properties and Characteristics

Character	Elastic
Colour	Colourless
Temperature resistance	-25°C to 100°C
Chemical base	Synthetic Rubber
Curing	By evaporation
Propellant	Hydrocarbon

V. Package Description

Part Number Size

8498 Aerosol 350g

VI. Special Precautions

General:

Extremely flammable aerosol, highly flammable liquid and vapour. Keep away from naked flames, electrical appliances/lights, lighted cigarettes, etc. Do not spray on open flame or other ignition source. Use with adequate ventilation. Store in a cool, well-ventilated area. Do not eat, drink or smoke when using this product. Dispose of empty containers safely. All unused product should be disposed of in conformance with local and HSNO regulations, do not contaminate water supply.

CRC Leak Stop Spray Seal

Aerosol Cans:

Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

Swallowed – Avoid giving milk or oils or alcohol. Not considered a normal route of entry.

Skin – Flush skin and hair with running water (and soap if available). Remove any adhering solids with industrial skin cleansing cream. DO NOT use solvents. Seek medical attention in the event of irritation.

Eyes – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Transport to hospital or doctor without delay.

Inhaled – Remove to fresh air. Lay patient down. Keep warm and rested.

Refer to Material Safety Data Sheet for more details.
