

Educational soldering kit, twilight switch

WSL125

WHADDA
EXCITING ELECTRONICS

Product description

This twilight switch automatically switches the lights on when it gets dark and off when it gets light again.

The built-in sensor measures light intensity. You can set the sensitivity yourself. Delay switching prevents annoying flashing. This educational soldering kit works with a 12 V adapter (not included).

- + Educational: Discover the fascinating world of Whadda soldering kits and learn the basics of electronics through engaging projects. The kits offer step-by-step instructions and clear explanations, allowing both beginners and experts to learn and experiment.
- + Creativity: Give space to your imagination and create unique electronic projects with the Whadda soldering kits. Unleash your creativity and build something that is truly yours!
- + Made in Belgium: Whadda is a unique brand from Belgium's Velleman Group that offers DIY projects for hobbyists or makers who want to immerse themselves in electronics, programming and mechanics.
- + STEM project
- + Perfect for young and old: With this experiment kit, children and adults with little or no prior knowledge can take their first steps into the exciting world of electronics and advanced users can deepen their knowledge.
 - The kit is ideal for youngsters and adults aged 9 to 99! However, children under 14 must be accompanied by an adult.
 - To make this kit, you will need some basic tools; a soldering iron or station, solder tin and pliers. Another practical tool is an anti-static soldering mat.
