## PRODUCTS

Electrically Operated Water Valves, open type, 120 or 220/240V, 60Hz, 6VA (per coil), max. amb. temp. 50°C, max water temp. 70°C, max pressure 10 bar, duty cycle ON / OFF = 3 / 8 minutes; Types V18, V19, V28, V29, V38, V39, AS8 and ASD.

## Notes:

1. The valves are certified as component part of other equipment where the acceptability of the final assembly is to be determined by the Canadian Standards Association.
2. Valves provided with a special use connector have spacings less than required for general purpose and acceptability has to be determined against the relevant equipment standard.

## APPLICABLE REQUIREMENTS

CAN/CSA-C22.2 No. 139 - 1982 - Electrically Operated Valves
