

FEATURES

- **60W Power Rating:** Provides sufficient power for a wide range of soldering applications, ensuring efficient heat delivery.
- **480°C Soldering Tip Temperature:** Allows for quick heating and effective soldering, reducing downtime.
- **Electric Power Type:** Offers consistent and stable power supply for reliable performance.
- **Compatible with 0631072 Soldering Station:** Ensures seamless integration and optimal functionality.
- **Type G and Type E Plug Types:** Provides flexibility for use in different regions.
- **Standards Approved:** Complies with ANSI-ESD S20.20:2021, CE, REACH, RoHS, and UKCA, ensuring safety and quality.

RS PRO 60W Electric Soldering Iron, 480°C Temperature

RS Stock No: 631-076

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 60W Electric Soldering Iron is designed for precision soldering tasks, offering a reliable solution for electronics assembly and repair. Ideal for use with the 0631072 Soldering Station, this soldering iron provides efficient heat transfer and temperature control, ensuring high-quality solder joints.

General Specifications

For Use With	0631072 Soldering Station
Power Type	Electric
Product Type	Soldering Iron
Soldering Tip Temperature	480 °C
Sub Type	Soldering Iron

Electrical Specifications

Input Voltage	230 V
Plug Type	Type G, Type E
Power Rating	60 W

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, CE, REACH, RoHS, UKCA
