

## FEATURES

- **Sintered Bronze Material:** Offers superior wear resistance and longevity, reducing maintenance needs.
- **16 mm Length:** Compact size for easy installation in tight spaces.
- **24.05 mm Outer Diameter:** Ensures compatibility with a wide range of housings.
- **19.98 mm Shaft Diameter:** Designed for precise fit and smooth operation.
- **Plain Bearing Design:** Provides efficient rotational movement with minimal friction.

**RS PRO 16 mm Sintered Bronze Plain Bearing, 24.05 mm Outer Diameter**

RS Stock No: 528-986

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it provides excellent wear resistance and durability, making it ideal for use in demanding industrial environments. Its compact design ensures easy integration into various machinery and equipment.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

## Mechanical Specifications

Length	16 mm
Material	Sintered Bronze
Outside Diameter	24.05 mm
