

Description

The 3120-N...-...T1-... thermal circuit breaker/switch combination unites overcurrent protection and the function of an ON/OFF switch within a single component. The trip element is a thermal bimetal. Type 3120-N...-...T1-... is ideally suited for overload protection of motors, pumps, transformers and cables. After tripping, it can reliably, easily and quickly be reset. The positively trip-free mechanism ensures reliable disconnection of the circuit even with the actuator blocked.

Type 3120-N is also available with thermal-magnetic trip (technical data p. 19 ff).

Type 3120-N is also available as a switch in accordance IEC/EN 61058 (see data sheet switch 3120-N...Q1).

Typical applications

Medical and laboratory equipment, apparatus and machine construction, professional tools, household and garden appliances, offices machines, audio equipment, machine tools

Features

- Single or double pole thermal circuit breaker/switch combination
- Voltage ratings: AC 240 V, DC 50 V (AC 415 V upon request)
- Current rating range: 0.1 ... 20 A (up to 30 A upon request)
- Optional: push-in terminals for easy and quick wiring with a long-term stability
- Extendable functionality through appliance inlet module
- Functional extension options with add-on modules for low voltage release, auxiliary contact function, remote trip or fast magnetic trip

Approvals

Compliances

Your benefits

- Maximum equipment availability is ensured by overload protection perfectly matched with the loads (prevention of nuisance tripping) and quick resettability
- Reduced mounting and wiring time
- Space-saving design
- Reduced disposition and storage costs
- Increased overall reliability

Further information

The current data sheet as well as other relevant documents are available on our website: www.e-t-a.de/e016

Accessories

Plug-in connector

Y 31214001

Connecting cables can be pre-wired. Two retaining clips ensure a tight fit.

Benefits:

- Reduced installation time and costs for final assembly
- Quick replacement of devices

Note:

Delivery without receptacles.

Dimensions of receptacles (width 6.3 mm) are in accordance with DIN 46340 part 3, shape A.

Examples of suitable receptacles: Stocko RSB 7916 F6,3-1 / Klauke type 2730 / Vogt type 3832d.67 / TE FASTON Terminals 250 Series / Delphi Packard 58 Series

Plug-in connector mounted on circuit breaker:

E-T-A® 3120-N...-...T1-... Thermal Circuit Breaker

Description – X3120-A/-B appliance inlet modules

The X3120 appliance inlet module with 3120-N5.6 circuit breaker type combines up to four functions within a single component: C14/ C20 inlet plug, an ON/ OFF switch, resettable overcurrent protection and a line filter. Screw-type mounting from the front or from the rear.

Typical applications

Electrical medical apparatus, laboratory equipment, professional audio equipment and office machines.

Approvals

X3120-A – C14 inlet plugs

7 ... 8 A	8 A
9 ... 10 A	10 A
12 A	12 A
14 ... 15 A	15 A

The 3120-N5.6 thermal circuit breaker protects the line filter in the event of an overload.

For protection of the filter in the event of higher overcurrents, we recommend 3120-N circuit breaker with thermal-magnetic trip (3120-N...-M1...).

Description X3120-U undervoltage release module

The undervoltage release module reliably excludes personal injury through automatic re-start after voltage dip or power failure.

Note: Basic unit 3120-N...-H7 or -G7 requires screw terminals. Not possible in combination with PT terminals.

Please observe the following in combination with design version 4: In the event of voltage dip or power failure, the undervoltage release module trips the circuit breaker.

The rocker actuator will go into centre position. Reset is effected in two steps:

- Step 1: Switch rocker into OFF position.
- Step 2: Reset circuit breaker.

Not possible with style configurations D and E.

Typical applications

All machines that could cause personal injury upon automatic re-start, e.g. drilling machines, electric saws, meat cutting machines etc.

The X3120-U02 version allows set up of a cost-effective safety circuit via the physically isolated undervoltage release module, which enables implementation for example of a remote disconnection with emergency stop.

Dimensions – undervoltage release module

Schematic diagrams

Technical data

Voltage ratings	AC 100 V; AC 120 V; AC 230/240 V; AC 400 V (50/60 Hz) DC 24 V
Voltage tolerances	+ 10 %/- 15 %
Typical life	20,000 cycles
Current consumption	approx. 2.5 mA
Release values	$0.2 \times U_N < U < 0.7 \times U_N$ (at a rated voltage of AC 100 V the device can trip at 70 V and must trip at 20 V)
Trip time	< 20 ms
Reset value	$\geq 85 \% U_N$
Ambient temperature	-30 ... 60 °C
Vibration	8 g (57-500 Hz), ± 0.61 mm (10-57 Hz) test to IEC 60068-2-6, test Fc 10 frequency cycles/axis
Shock	30 g (11 ms) test to IEC 60068-2-27, test Ea
Corrosion	48 hours at 5 % salt mist, test to IEC 60068-2-11, test Ka
Humidity	240 hrs in 95 % RH test to IEC 60068-2-78, test Cab
Mass	approx. 56 g (including base unit)

Description X3120-S auxiliary contact module

Add-on module for circuit breaker type 3120-N. The auxiliary contact module has a change-over contact as signal contact and is operated with actuation of the CBE.

Note: Only possible with terminal designs N7 and P7.

Typical applications

Status monitoring of CBE and/or the connected loads.

Order numbering code

Type No.

X3120 module for type 3120-N

Module

S auxiliary contact module

Design

0 change-over contact

Terminal design

1 blade terminals DIN 46244-A6.3-0.8

Key for rated power

A AC 10 V – AC 250 V	0.1 ... 4 A
DC 12 V	0.1 ... 4 A
DC 24 V	0.1 ... 4 A
DC 60 V	0.1 ... 1 A
DC 110 V	0.1 ... 0.5 A
DC 220 V	0.1 ... 0.25 A
B AC 5 V – AC 250 V	5 ... 100 mA
DC 5 V – DC 250 V	5 ... 100 mA

Supply status

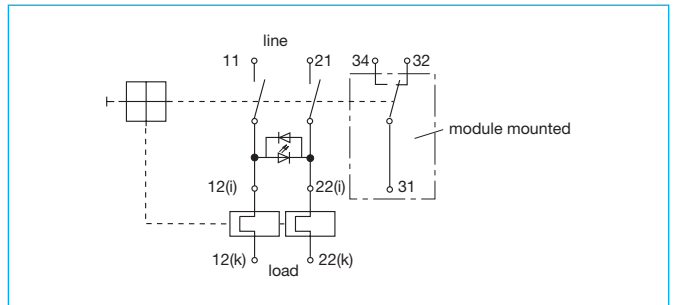

M module mounted to circuit breaker 3120-N

X3120-S 0 1 A M ordering example

Dimensions – auxiliary contact module

Schematic diagram

Technical data

Voltage ratings	AC 250 V, DC 250 V
Current ratings	0.1...4 A / 5...100 mA
Typical life	50,000 cycles
Ambient temperature	-30 ... 60 °C
Dielectric strength	
Between main and auxiliary circuit	test voltage AC 3,000 V
Insulation resistance	> 100 MOhm (DC 500 V)
Vibration	6 g (57-500 Hz), ± 0.46 mm (10-57 Hz) test to IEC 60068-2-6, test Fc 10 frequency cycles/axis
Shock	15 g (11 ms) test to IEC 60068-2-27, test Ea
Corrosion	96 hours at 5 % salt mist, test to IEC 60068-2-11, test Ka
Humidity	240 hrs in 95 % RH test to IEC 60068-2-78, test Cab
Mass	approx. 41 g (including base unit)

Description X3120-M remote trip module

A module which adds remote trip capability to all versions of type 3120-N. A voltage applied across the coil will cause trip of the main switch/circuit breaker mechanism.

Note: Not possible in combination with PT terminals.

Typical applications

Electrical remote trip of safety systems.

Order numbering code

Type No.

X3120 module for type 3120-N

Module

M magnetic trip module

Design

2 magnetic remote trip coil

Terminal design

P7 blade terminals DIN 46244-A6.3-0.8

Supply status

M module mounted to circuit breaker 3120-N

Voltage ratings

AC 120, 230 V

DC 12, 24 V

X3120-M 2 P7 M -12 V ordering example

Standard voltage ratings and typical internal resistance values

Voltage ratings	Internal internal resistance (Ω)	Voltage ratings	internal internal resistance (Ω)
DC 12 V	0.78	AC 120 V	71.0
DC 24 V	3.3	AC 230 V	312

Mass	approx. 56 g (including base unit)

Description

The 3120-N...-...M1-... thermal-magnetic circuit breaker/switch combination unites overcurrent protection and the function of an ON/OFF switch within a single component. The integral thermobimetal ensures ideally matched overload protection. The magnetic trip module trips the circuit breaker/switch combination at overload currents from four times rated current within milliseconds.

The 3120-N...-...M1-... meets the fire resistance requirements to EN 60335-1: 2007-02 Household and similar electrical appliances – Safety.

Typical applications

Electric motors, household appliances and office machines, electrical tools, power supplies, charging rectifiers

Current ratings and internal resistance values

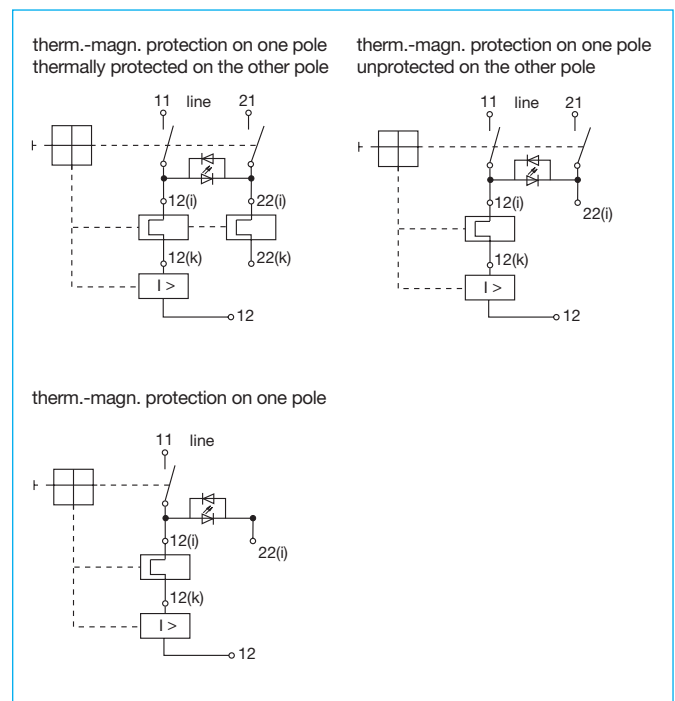

Current rating (A)	Internal resistance per pole (Ω)	
	thermal-magnetic	thermal 1.15 -1.38 x I _N
0.1	165	94
0.2	42.5	24

Rated voltage AC 240 V, DC 50 V (AC 415 V upon request)

Current rating range 0.1...16 A

Typical life 1-pole

AC 240 V: 0.1...16 A 30,000 operations at $1 \times I_N$, inductive
 DC 50 V: 0.1...4 A 30,000 operations at $1 \times I_N$, inductive
 4.5...16 A 30,000 operations at $1 \times I_N$, resistive
 DC 28 V: 0.1...16 A 30,000 operations at $1 \times I_N$, inductive

Typical life 2-pole

AC 240 V: 0.1...16 A 50,000 operations at $1 \times I_N$, inductive
 DC 50 V: 0.1...16 A 50,000 operations at $1 \times I_N$, inductive

Ambient temperature -30... 60 °C

Insulation coordination (IEC 60664) 2.5 kV / 2 reinforced insulation in the operating area

Dielectric strength
 Operating area test voltage AC 3000 V
 Current path/current path test voltage AC 1500 V

Insulation resistance > 100 MOhm (DC 500 V)

Rupture capacity I_{cn} (IEC/EN 60934)

	I_N	U_N	I_{cn}
1-pole, 2-pole	0.1 ... 2 A	AC 240 V / DC 28 V	$100 \times I_N$
1-pole	0.1 ... 10 A	DC 50 V	50 A
1-pole	2.5 ... 16 A	AC 240 V / DC 28 V	200 A
2-pole	0.1 ... 2 A	DC 50 V	$10 \times I_N$
2-pole	2.5 ... 16 A	DC 50 V	250 A
2-pole	2.5 ... 16 A	AC 240 V / DC 28 V	300 A

Interrupting capacity I_{nc} (UL 1077)

	I_N	U_N	I_{nc}
1-pole, 2-pole	0.1 ... 10 A	AC 250 V	2,000 A, C, 1
1-pole, 2-pole	0.1 ... 16 A	AC 125 V	1,000 A, C, 1

Degree of protection (IEC 60529)

Operating area	IP40 with water splash protection IP65
Terminal area	IP00 with water splash protection IP64
Vibration	8 g (57-500 Hz) \pm 0.61 mm (10-57 Hz) test to IEC 60068-2-6, test Fc 10 frequency cycles/axis
Shock resistance	30 g (11 ms) test to IEC 60068-2-27, test Ea
Corrosion	96 hrs in 5 % salt mist test to IEC 60068-2-11, test Ka
Humidity	240 hrs in 95 % RH test to IEC 60068-2-78, test Cab
Mass	approx. 53 g (2-pole) approx. 50 g (1-pole)

Approvals

Approval authority	Standard	Voltage ratings	Current rating range
VDE	IEC/EN 60934	AC 240 V DC 50 V	0.1 ... 16 A 0.1 ... 16 A

CSA	C22.2 No 235	AC 250 V AC 125 V	0.1...10 A 0.1...16 A
CQC (CCC)	GB 17701	AC 240 V DC 50 V	0.1...16 A 0.1...16 A

Time/current characteristics

Single or double pole load

0.1...2 A

AC/DC ¹⁾

2.5...16 A

AC/DC ¹⁾

¹⁾ Magnetic tripping currents are increased by 25% on DC supplies.

The time/current characteristic depends on the ambient temperature. In order to eliminate nuisance tripping, please multiply the current rating by a derating factor.

ambient temperature [°C]	-30	-20	-10	0	23	40	50	60
temperature factor	0.8	0.84	0.88	0.92	1	1.08	1.14	1.23

Order numbering code

Type No.

3120 thermal-magnetic circuit breaker/switch combination with rocker actuation

Mounting method

N3 snap-in, mounting cut-out 50.5 x 21.5 mm

N5 snap-in, mounting cut-out 44.5 x 22 mm

Number of poles

1 1-pole switching, 1-pole thermal-magnetically protected

2 2-pole switching, 2-pole protected (pole one: thermal-magnetically protected, pole two: thermally protected)

5 2-pole switching, 1-pole thermal-magnetically protected

Style

1 standard

3 with actuator guard

4 with water splash protection (IP65)

6 version for appliance inlet modules

X3120-A/B (only for mounting method N5)

with actuator guard and cross-hole

Terminal design

P7 blade terminals

H7 as P7, terminals 11 and 21 with additional flat head screws M3.5

N7 as P7, with additional shunt terminals 12(i) and 22(i)

G7 as N7, terminals 11 and 21 with additional flat head screws M3.5

Trip curve

M1 medium delay, thermal- 1.01-1.4 x I_N; magnetic 4-9 x I_N AC

Actuator

W rocker

Rocker colour and illumination

01 . black without illumination

02 . white without illumination

04 . red without illumination

12 . Y white with illumination

14 . R red with illumination

15 . Y orange with illumination

16 . T blue with illumination

19 . G green with illumination

Marking of rocker actuator

rocker style

A (not for style 4)

Illumination voltage range

(= operating voltage)

1 DC 12 V

2 DC 24 V

3 AC 115 V

4 AC 230 V

5 DC 48 V

6 AC 400 V (for 2-pole versions)

Current ratings

0.1 ... 16 A

3120-N5 2 4 - M1-W 19 D G 4 - 16 A ordering example

Order numbering code

Type No.

3120 thermal-magnetic circuit breaker/switch combination with push button actuation

Mounting method

N3 snap-in, mounting cut-out 50.5 x 21.5 mm

N5 snap-in, mounting cut-out 44.5 x 22 mm

Number of poles

1 1-pole switching, 1-pole thermal-magnetically protected

2 2-pole switching, 2-pole protected (pole one: thermal-magnetically protected, pole two: thermally protected)

5 2-pole switching, 1-pole thermal-magnetically protected

Style

D with actuator guard

E with actuator guard and water splash cover

F with power-on protection

V with power-on protection and water splash cover

Terminal design

P7 blade terminals

H7 as P7, terminals 11 and 21 with additional flat head screws M3.5

N7 as P7, with additional shunt terminals 12(i) and 22(i)

G7 as N7, terminals 11 and 21 with additional flat head screws M3.5

Trip curve

M1 medium delay, thermal- 1.01-1.4 x I_N; magnetic 4-9 x I_N AC

Actuator

S two push buttons

Colour of push button/illumination (style D and F without water splash protection)

GRD green/red without illumination

GRDG green with LED illumination/red without illumination

Colour of push button/illumination (style E and V with water splash protection)

GRX green/red without illumination

GRXG green with LED illumination/red without illumination

Illumination voltage range

(= operating voltage)

1 DC 12 V

2 DC 24 V

3 AC 115 V

4 AC 230 V

5 DC 48 V
