

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **1/2 in Length:** Suitable for compact applications requiring precise fitting.
- **0.75 in Outside Diameter:** Ensures compatibility with a wide range of housings.
- **0.49 in Shaft Diameter:** Designed for optimal fit and function with standard shafts.

## RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-177

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient rotational movement in various mechanical applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding environments. The bearing's compact design allows for easy integration into existing systems, providing reliable performance and reduced maintenance needs.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

## Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.75 in
