RS PRO 3.5 mm Cable Mount Mono Jack Plug

RS Stock No.: 106-868

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, this 2 pole mono jack plug offers an economic and reliable solution for audio applications. The phono connector is easy to terminate, and has a plastic cap for insulation. It also features a moulded cable sleeve to protect against potential damage caused by tugging and pulling of the cable. The unique hexagonal shape of the jack connector casing means it is easier to grip, which is ideal for plugging and unplugging in difficult to access areas. This jack plug has solder tab termination, and a nickel plated contact for a cost-effective phono connection solution.
