

**STANLEY**

MAKE SOMETHING GREAT™

Stanley's expanded line of LED flashlights provides convenience in a range of sizes and styles. The MaxLife™ 369™ Tripod and Mini Tripod models provide hands-free lighting options. Both durable and water-resistant, the flashlights offer such features as patented MaxLife™ 369™ technology, which enables the light to operate on 3, 6, or 9 batteries and to generate more than 200 hours of continuous light. These models also feature a hands-free tripod design and a multi-position head, which allows the user to aim a focused beam of light where needed. The new MaxLife™ 369™ Tripod models incorporate the same great tripod design and multi-position head, and also offer 1.25 Watt market-leading LED technology to maximize lumen output and include a spot-to-flood feature to focus light exactly where you need it.

MaxLife™ 369™ Tripod Flashlight

Mini Tripod Flashlight

MaxLife™ 369™ Flashlight

### MaxLife™ 369™ Tripod Flashlight – Titanium Finish
