

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, extending the lifespan of the bearing.
- **25 mm Length:** Compact design suitable for applications with limited space.
- **40.06 mm Outer Diameter:** Ensures compatibility with a wide range of housings and applications.
- **31.97 mm Shaft Diameter:** Designed to fit standard shaft sizes, ensuring ease of integration.

RS PRO 25 mm Sintered Bronze Plain Bearing, 40.06 mm Outer Diameter

RS Stock No: 529-001

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for high-performance applications requiring reliable and efficient operation. Constructed from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding industrial environments. The bearing's primary function is to support rotating shafts, ensuring smooth and frictionless movement.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	31.97 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	40.06 mm
