Product Description

This RS PRO momentary foot switch lets you use foot pressure to change contacts within an electrical circuit. It's mainly found in large machinery, where operating a hand switch may be a safety concern. You can also use it for general purpose applications, including sewing machines, hoists and medical equipment.

There's a hardwearing casing made from steel. It has dimensions of (L) $75.5 \mathrm{~mm} \times(\mathrm{H}) 21.5 \mathrm{~mm} \times(\mathrm{W})$ 103.5 mm . The casing is IP68 rated, so it's resistant to dust and can be submerged in water up to a depth of 1.5 m for up to 30 minutes.
