

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **20mm Length:** Suitable for compact installations, ensuring a perfect fit in tight spaces.
- **21.05mm Outside Diameter:** Provides stability and support for shafts, enhancing performance.
- **14.98mm Shaft Diameter Compatibility:** Ensures a precise fit for standard shaft sizes, improving efficiency.

RS PRO 20mm Sintered Bronze Plain Bearing, 21.05mm OD

RS Stock No: 528-322

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 20mm Sintered Bronze Plain Bearing is designed for applications requiring reliable and efficient rotational movement. This plain bearing is ideal for use in environments where low friction and durability are essential, providing a cost-effective solution for various industrial applications.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	14.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	21.05 mm
