

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **20mm Length:** Compact size suitable for tight spaces, enhancing versatility in design.
- **36.06mm Outer Diameter:** Ensures a secure fit within housings, improving stability.
- **27.98mm Shaft Diameter Compatibility:** Designed to accommodate standard shaft sizes, facilitating easy integration.
- **Low Friction:** Reduces energy consumption and heat generation, improving efficiency.
- **Self-lubricating Properties:** Minimises maintenance needs, saving time and costs.

RS PRO 20mm Sintered Bronze Plain Bearing, 36.06mm Outer Diameter

RS Stock No: 558-418

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, it offers excellent durability and reduced friction, making it ideal for supporting rotating shafts. Its compact design with a 20mm length and 36.06mm outer diameter ensures compatibility with a wide range of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	27.98 mm

Mechanical Specifications

Length	20 mm
Material	Sintered Bronze
Outside Diameter	36.06 mm
