

ISO 11611 :Classe 1  
A1+A2

ISO :11611

## MECHANICAL PERFORMANCE:

- ISO 13688: 2013/ A1: 2021
- ISO 11611: 2015 Classe 1 A1+A2
- In accordance with EU Regulation 2016/425. Declaration available at: [guyard-sa.com](http://guyard-sa.com)

### Description:

Cap with a visor made from Proban-treated cotton canvas, with neck protection.  
Equipped with an elastic adjustment inside at the central part.  
This garment can also be made in various colors such as green, red, blue, orange, and gray.  
Stitched with para-aramid thread.

### Recommendations:

Suitable for welding, grinding, and sandblasting. According to the indicated class.  
The garment provides limited flame spread protection, protection against small metal splash projections, radiant heat, and accidental electrical contact for short durations.

### Limitations of Protection:

Type of protective clothing used during welding and related techniques, class 1.  
Not to be used for handling chemicals or liquids.  
This garment must be properly tightened and closed and always worn in combination with a protective jacket with similar protective performance to ensure full coverage of the adjustment area.  
For complete protection against welding risks, additional PPE meeting other standards should be worn to protect the body, face, hands, and feet.

### Conditioning, Maintenance & Storage:

The garment is packaged individually. No special maintenance is recommended. It is advisable to store the products in a place protected from light, cool, dry, and well-ventilated.  
Before use, visually check that the garment does not show any defects, holes, tears, or unusual wear. If the user experiences symptoms similar to sunburn, there may be exposure to UVB rays. In such cases, the garment should be repaired or replaced, and consideration should be given to using additional, more resistant protective layers.

### Recycling:

Dispose of safely through mechanical destruction or incineration.

### Marking:

The CE marking on this cap indicates compliance with the essential health and safety requirements of the European Regulation 2016/425 related to personal protective equipment (PPE).

### Safety:

We declare that the product does not contain substances at levels known or suspected to have harmful effects on hygiene or health under foreseeable conditions of use. Its design does not cause any irritation or discomfort to the wearer.
