RS PRO ST Multimode Simplex Fibre Optic Adapter

RS Stock No.: 536-7768

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

A multimode simplex fibre optic adapter is used to join two connectors together in either a distribution panel or a wall box. This fibre optic adapter is made for standard ST (straight-tip) connections and, as a simplex adapter, it lets telecommunications flow in one direction only.

Commonplace in the telecommunications industry it's most frequently used to bridge the gap between cables and their fibre optic connections, allowing data and telephone signals to travel smoothly.
