

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1-1/2 in Length:** Suitable for a variety of applications, offering versatility in design.
- **1.5 in Outside Diameter:** Ensures compatibility with standard housings, simplifying installation.
- **0.99 in Shaft Diameter:** Designed to fit common shaft sizes, enhancing ease of use.
- **Plain Bearing Design:** Offers a cost-effective solution for reducing friction and wear in rotating applications.

RS PRO 1-1/2 in Sintered Bronze Plain Bearing

RS Stock No: 558-529

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 1-1/2 in Sintered Bronze Plain Bearing is designed for applications requiring reliable and efficient rotational movement. This plain bearing is ideal for reducing friction between moving parts, ensuring smooth operation and longevity in machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.99 in

Mechanical Specifications

Length	1-1/2 in
Material	Sintered Bronze
Outside Diameter	1.5 in
