

Due to its wide operating voltage and automatic synchronisation, the Solex beacon is a flexible solution for all types of alarm and monitoring systems.

Powered by Xenon technology, the Solex is a cost effective solution that can compliment audible alarms in high-noise environments.

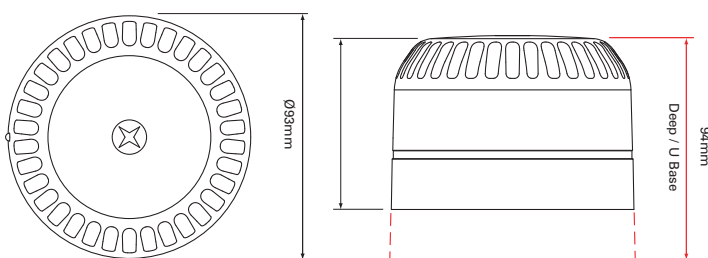

### Features

- 3 light output variants
- 5 lens colour variants
- 9-60V
- Anti-tamper switch option

### Benefits

- Manage the current to suit your application
- Use for fire warning or general signalling
- Wide operating voltage for maximum flexibility
- For use where security is an issue (tamper switch)
- Increased visibility from wide viewing angle of flash
- Synchronised flash
