

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **8 mm Length:** Suitable for applications requiring compact and efficient bearing solutions.
- **12.04 mm Outside Diameter:** Ensures a snug fit in standard housings, reducing the need for additional modifications.
- **7.98 mm Shaft Diameter Compatibility:** Designed to accommodate standard shaft sizes, facilitating easy integration into existing systems.
- **Plain Bearing Design:** Offers low friction and smooth operation, enhancing the efficiency of mechanical systems.

RS PRO 8mm Sintered Bronze Plain Bearing

RS Stock No: 528-254

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for supporting rotating or sliding shafts. The compact design with an 8 mm length and 12.04 mm outside diameter ensures a perfect fit in tight spaces.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	7.98 mm

Mechanical Specifications

Length	8 mm
Material	Sintered Bronze
Outside Diameter	12.04 mm
