

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring a long service life.
- **36 mm Length:** Suitable for compact installations where space is limited.
- **45.06 mm Outside Diameter:** Provides a stable fit within housings, enhancing operational stability.
- **35.97 mm Shaft Diameter:** Ensures a precise fit for optimal performance and reduced vibration.

RS PRO Sintered Bronze Plain Bearing, 36 mm Length

RS Stock No: 558-428

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for reliable performance in various industrial applications. It provides smooth operation and reduces friction between moving parts, making it ideal for machinery that requires consistent and efficient motion.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	35.97 mm

Mechanical Specifications

Length	36 mm
Material	Sintered Bronze
Outside Diameter	45.06 mm
