RS PRO ESD Articulated Holder

RS Stock No.: 0687748

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

ESD ARTICULATED HOLDER

The articulated holder is a functional solution that facilitates the organization of work materials in environments where electrostatic control is essential. Made from high-quality structural steel and coated with ESD powder paint, the holder is resistant to damage and perfectly accommodates document sizes such as A4. Other dimensions are also available upon request.

One of the standout features of this holder is its adjustable tilt and rotation, allowing for precise alignment of documents to meet the user's individual needs. This enables employees to customize the viewing angle of documents, contributing to improved work comfort and reducing eye strain during prolonged review of materials.

The holder is designed to keep documents stable, and its robust construction supports a load capacity of up to 15 kg. This versatile accessory enhances workspace organization, increasing efficiency and comfort in demanding conditions.

Our articulated holder stands out for its durable construction and versatility, making it an excellent choice for any workstation. With precise adjustments and high-quality materials, it provides reliable support and an ideal environment for document management.

Accessories compatible with L & H Type workbenches 1200/1500/1800/2000
