VOLTAGE TESTER 2100-BETA, LCD/LED

VERSION Robuster, reliable electronic voltage and continuity tester. Extremely robust device design with double insulated test leads and extended warranty to 4 years. With LCD and data hold function.

REALLY EFFECTIVE AC MEASURING CLAMP AMP-320-EUR FOR HVAC SYSTEMS UP TO 600 A WITH MOTOR TEST

FUNCTION Numerous measuring functions for modern electrical systems. True RMS measurement, low-pass filters and fast processors for fast and accurate measurements. With direction of rotation indicator for three-phase current and motors.

DIGITAL MULTIMETER AM-520-EUR

This robust measuring instrument is characterized by reliability and a wide range of functions and is suitable for measurements in buildings, on heating, ventilation and air conditioning systems, electrical systems and in industry. Safety according to measurement category CAT III 600 V. Voltage measurements up to 600 V AC/DC.
