

Features

- **High-Quality Polypropylene Construction** – Durable, lightweight, and resistant to water, chemicals, and rough handling.
- **Multi-Compartment Design** – Purpose-built sections to store lockout devices, small parts, fasteners, and tools efficiently.
- **Metal Rod Hinges** – Provides enhanced load-bearing strength for long-term use.
- **Latch-Type Locks** – Ensures firm and secure closure during transport.
- **Comfort-Grip Handle** – Ergonomically designed for higher load carrying comfort and stability.
- **13 kg Load Capacity** – Supports heavy-duty storage, including tools and accessories.

RS PRO PVC Tool Box and Organiser for Storing Lockout Devices

RS Stock No.: 0750836

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

- *The Toolbox is engineered from premium-grade Polypropylene, offering durability, portability, and resistance to water and impact.*
- *Ideal for maintenance teams and LOTO technicians, it keeps tools organised and readily accessible at the job site.*
- *Weighs significantly less than metal toolboxes, making it a cost-effective and easy-to-carry option for field operations.*
- *Features multiple compartments designed specifically for storing lockout devices, spare parts, and everyday tools.*
- *Equipped with metal rod hinges to support higher loads and ensure long service life.*
- *Latch-type locking mechanism provides firm and reliable closure, preventing accidental opening during movement.*
- *Includes an internal removable tray for frequently used items, improving workflow efficiency.*
- *The top organiser section allows quick access to small objects such as fasteners, screws, ties, and tags.*
- *Designed with a special comfort-grip handle to support heavy loads without discomfort.*
- *Total load capacity (including self-weight): 13 kg, making it suitable for industrial, mechanical, and electrical applications.*

General Specifications

Type	Tool Box
Material	Polypropylene
Colour	Black & Orange
Package	Individual Box

Mechanical Specifications

Dimensions	435mm X 240mm X 195mm
Length	435mm
Width	240mm
Height	195mm
Weight	1256 Grams

Operation Environment Specifications

Withstand temperature	-20°C to 115°C
