RS Pro Desk Lamp

Product Details

RS Pro ispot Blade 8W LED Desk Lamp

The RS Pro ispot blade desk lamp follows a modern minimalist design. With a 180 degree adjustable lamp head and 90 degree adjustable lamp arm the light can be adjusted as desired. The ispot blade includes a touch control interface with multi stage dimming colour temperature and brightness. The colour temperature can be tuned from warm white (3000K) to daylight (6500K). The ispot blade incorporates a USB charging outlet ideal for charging electronic devices such as mobile phones. Available in both black (RS [111-9984](#)) and white (RS [112-0090](#)) finishes.
