- Tested to 150kg Workload Max

RS PRO GRP Fibreglass Work Platform, 0.5 m Platform Height

RS Stock No.: 0827584

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO GRP Fibreglass Work Platform is designed for professionals working around electrical and industrial environments, where safety, insulation, and portability are essential. Manufactured from GRP fibreglass, it offers excellent electrical insulating properties combined with strength and durability for low- level access tasks.

The platform features a wide anti- slip working surface to provide stable footing, helping reduce the risk of slips and improve operator confidence. Locking clips ensure the platform remains secure during use, while allowing fast folding for easy transport and compact storage. Lightweight yet robust, it is ideal for tradespeople who need a dependable, portable working platform.
