

Features

- White colour
- Length of 2 m
- Thickness of 6 mm
- Width of 1 m
- Ethylene propylene iene monomer (EPDM) material
- Operating temperature range of -40°C of +100°C

RS PRO White Rubber Sheet, 2m x 1m

RS Stock No: 103-4062

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

The sheet's ethylene propylene diene monomer (EPDM) rubber material has received a sulphur chemical treatment for added strength. This makes it highly resistant to discolouration, pressure, and cracking. The material can also withstand high temperatures and harsh marine conditions, so it will hold up in even the most demanding environments.

This rubber sheet complies with Restriction of Hazardous Substances (RoHS) requirements, meaning it contains only trace amounts of any harmful materials. You'll commonly find this sheet used to manufacture industrial components such as pipe seals and gaskets.

Specifications

Material	EPDM
Colour	White
Length	2m
Adhesive Backing	No
Width	1m
Thickness	6mm
Maximum Operating Temperature	+100°C
Minimum Operating Temperature	-40°C
