

1464T/N

Digital pressure and compression tester

CE

Beta's digital tester, 1464T, can be used to measure numerous parameters in the automotive industry. The 80 bar pressure sensor it is fitted with can be used to test pressure and compression in petrol and diesel engines as well as oil pressure, the low pressure common rail circuit, and perform several other tests. The internal software can be updated via Wi-Fi connection. The result of the measurements is displayed on the 8" touch screen. Data will be represented graphically or numerically, depending on the test that is being performed.

 2,5 Kg

Technical data:

- Display: 8"
- Resolution: 800x840 px
- Processor: Dual core 240 MHz
- Internal memory: 32 Mb
- Software: 32-bits
