

Product description	M12 Male cable connector, Contacts: 8, 5.5-8.6 mm, shieldable, screw clamp, IP68/IP69K, UL 2238, stainless steel, with shielding ring
Area	M12-A
Coding	A-coded
Series	713
Part no.	99 1487 992 08

Technical data

General features

Part no.	99 1487 992 08
Connector design	Male cable connector
Type standard	DIN EN 61076-2-101
Coding	A-coded
Version	Connector pin straight
Connector locking system	screw
Termination	screw clamp
Degree of protection	IP68/IP69K
Connection cross-section	max. 0.50 mm ² / AWG 20
Cable outlet	5.5-8.6 mm
Temperature range from/to	-40 °C / 85 °C
Mechanical operation	> 500 Mating cycles
Weight (g)	52.42
Customs tariff number	85369010
Country of Origin	DE

Electrical parameters

Rated voltage	30 V (60 V UL)
Rated impulse voltage	800 V
Rated current	2.0 A
Insulation resistance	> 10 ⁸ Ω
Pollution degree	3
Overvoltage category	II
Insulating material group	III
EMC compliance	shieldable

Product data sheet

Automation technology - Sensors and actuators

Product description	M12 Male cable connector, Contacts: 8, 5.5-8.6 mm, shieldable, screw clamp, IP68/IP69K, UL 2238, stainless steel, with shielding ring
Area	M12-A
Coding	A-coded
Series	713
Part no.	99 1487 992 08

Shield connection	Shielding ring
-------------------	----------------

Material

Housing material	Stainless steel
Contact body material	PA66 (UL94 HB)
Contact material	CuZn (brass)
Contact plating	Au (gold)
Locking material	Stainless steel
REACH SVHC	CAS 7439-92-1 (Lead)
SCIP number	a675b340-4969-4bd6-9a48-79b09c79234e

Authorization/approvals

Approvals	UL 2238
Norms and regulations	DIN EN 61373 DIN EN 45545-2 (nicht klassifizierte brennbare Masse <10g)

Classifications

eCl@ss 11.1	27-44-01-02
ETIM 9.0	EC002635

Product description	M12 Male cable connector, Contacts: 8, 5.5-8.6 mm, shieldable, screw clamp, IP68/IP69K, UL 2238, stainless steel, with shielding ring
Area	M12-A
Coding	A-coded
Series	713
Part no.	99 1487 992 08

General Disclaim Notice

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

To protect against unintentional opening of the connector, the thread between the housing and the connector head must be secured with a suitable cyanoacrylate adhesive when used in circuits with voltages dangerous to the touch. This does not apply to connectors used in SELV and PELV circuits according to IEC 61140 (EN 61140, VDE 0140-1).

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

The user must take suitable safety precautions to ensure that the connector cannot be accidentally disconnected.

Plug connectors with enclosure protection IP67 and IP68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre.

Please observe the pollution degree and the overvoltage category. For further information, please refer to the download center "Technical Information".

To lock the cable connector with the device connector, the threaded ring is tightened "hand-tight" (approx. 60 cNm).
