**Description**

stat-A-REST™ Foot Grounders are Dissipative Footwear which meet EN 61340-5-1. They are designed to more reliably contact grounded ESD flooring, and provide a continuous path-to-ground to remove electrostatic charges from personnel. stat-A-REST™ are easier to install than most foot grounders, and designed to be used on standard shoes by placing the grounding tab in the shoe under the foot. They are a suitable ESD footwear component in a Person/footwear/flooring system, meeting the EN 61340-5-1 required limits < 1 x 10<sup>9</sup> ohms and < 100 volts peak body voltage.
