

## FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **2 in Outside Diameter:** Suitable for a wide range of applications, offering versatility in design.
- **1.74 in Shaft Diameter:** Ensures a snug fit for optimal performance and reduced vibration.
- **Self-Lubricating:** Reduces maintenance requirements and enhances operational efficiency.
- **Corrosion Resistant:** Ideal for use in harsh environments, extending the lifespan of the bearing.

## RS PRO 2 in Plain Bearing, Sintered Bronze

RS Stock No: 594-751

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for use in environments where reliability is crucial.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.74 in

## Mechanical Specifications

Length	2 in
Material	Sintered Bronze
Outside Diameter	2 in
