

- Fits in RapidNet Panel

- Easy push down clip to fit

- Helps prevent dust in the comms cabinet

Product Description

The RapidNet Blanking plate is designed to fill the voids in any RapidNet panels where space has been left for future expansion. The blanking plate offers a professional, tidy finish to the panel and helps prevent dust and dirt getting into the cabling area of the comms cabinet.

Features and Benefits

- Plastic blanks for partially loaded panels
- Available in both 6 and 4 port cassette versions
- Easy installation with push down clip
- Helps prevent dust entering the comms cabinet
