

## WSFP8

Item No: T0052812299N

Soldering Iron 80W, 24 V for Wire Ø  
0,8 - 1,5 mm with Soldering Tip LT BX

## TECHNICAL DATA

|                                                 |                             |
|-------------------------------------------------|-----------------------------|
| Approximate Heating Time (50-350 °C/120-660 °F) | 10 sec                      |
| Barrel                                          | T0058744710                 |
| Integrated Direct Extraction                    | T0052812699                 |
| Power                                           | 80 W                        |
| Silver Line Heating Element Technology          | Yes                         |
| Temperature Range (Depends on Tool)             | 50 - 450°C                  |
| Temperature Range °C                            | 50 - 450°C                  |
| Temperature Range °F                            | 150 - 850 °F                |
| Tip Type                                        | LT                          |
| UPC                                             | 4003019409617               |
| Product Family                                  | Low Voltage Soldering Irons |
