TE Connectivity

Product Change Notification: PCN-24-201442

Customer: RS Components (1271907)

Location: Northans

Agreement: Agreement Unknown

PCN Date: 04-MAR-24

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

T9A, T9E series relay.

General Description of Changes

Dear customers, please be aware of an upcoming feature change to the listed T9A/T9E part numbers with the new melted sealing technology, there is no impact on the product performance with the change. You can see comparison details in the below PCN images table. Before:1. For the sealed type, the nib is at the top corner of the case normally closed, and use UV glue to seal the vent hole on the base finally. 2. For the vented type, the nib is at the top corner of the case normally closed and the vent hole is at the bottom of the base normally opened . After: 1. For the sealed type, use melting sealing technology to seal the vent hole on the case finally, not use UV glue further and cancel the vent hole on the base. 2. For the vented type, it's a opened nib vent hole and cancel the vent hole on the base.

Vented type:

The vent hole is opened

The vent hole has been cancelled

Sealed type:

The vent hole has been closed by melting sealing technology

The vent hole has been cancelled

Reason for Changes:

New melted sealing technology implementation to cancel UV glue usage.
