

X431 flap discs, Standard for Metal, straight version - EN 13743 - plastic

standard  Metal

- ▶ Particularly suitable for metalworking
- ▶ Good material removal rate thanks to semi-friable aluminium oxide, fully synthetic resin bonded, sturdy X-cloth
- ▶ The low-cost alternative as an ideal solution
- ▶ Flap disc on carrier plate made of plastic
- ▶ Straight version - for surface sanding and working on welded seams at a work angle of 5-15°
