

FEATURES

- **Sintered Bronze Material:** Provides excellent durability and wear resistance, ensuring long service life.
- **1-1/4 in Length:** Suitable for a variety of applications, offering versatility in design.
- **1.75 in Outside Diameter:** Ensures compatibility with standard housing dimensions.
- **1.49 in Shaft Diameter:** Designed for precise fit and smooth operation.
- **Low Friction:** Reduces energy consumption and enhances efficiency.
- **High Load Capacity:** Capable of supporting significant loads, making it ideal for heavy-duty applications.

RS PRO 1-1/4 in Plain Bearing, Sintered Bronze

RS Stock No: 558-563

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a reliable plain bearing designed for smooth and efficient motion in various mechanical applications. This plain bearing is crafted from high-quality sintered bronze, providing excellent durability and resistance to wear. Ideal for applications requiring low friction and high load capacity, this bearing ensures optimal performance and longevity.
