

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **60 mm Length:** Provides stability and support for longer shaft applications.
- **52.09 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **41.97 mm Shaft Diameter:** Suitable for standard shaft sizes, ensuring easy integration.

RS PRO 60mm Sintered Bronze Plain Bearing, 52.09mm OD

RS Stock No: 594-783

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, designed to provide reliable performance in various industrial applications. With a length of 60 mm and an outside diameter of 52.09 mm, it is ideal for supporting rotating shafts and reducing friction in mechanical systems. The primary benefit of this bearing is its ability to operate effectively under high loads and temperatures, making it a durable choice for demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	41.97 mm

Mechanical Specifications

Length	60 mm
Material	Sintered Bronze
Outside Diameter	52.09 mm
