

10 LITRE POLY SPILL TRAY WITH GRID

PRODUCT

Ideal for labs and worktops, this durable poly spill tray safely stores small containers of oils and chemicals. Made from 100% recyclable, UV- and chemical-resistant PE, it features a non-slip platform grid with hand inserts and pump holes, and can be used with or without the grid. Its nestable design saves storage space, and it's quick to clean, making spill control simple and efficient.
