

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **40 mm Length:** Suitable for applications with limited space, offering flexibility in design.
- **36.06 mm Outer Diameter:** Ensures compatibility with a wide range of housings and equipment.
- **27.98 mm Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration.

RS PRO 40 mm Sintered Bronze Plain Bearing, 36.06 mm Outer Diameter

RS Stock No: 558-421

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it offers excellent durability and performance in various industrial settings. Its compact design with a 40 mm length and 36.06 mm outer diameter makes it ideal for use in tight spaces, providing smooth operation and reducing friction.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	27.98 mm

Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	36.06 mm
