

hand-held vacuum cleaner XR 18V DCV501LN-XJ

- Class L, the only hand vacuum cleaner certified for use on EU construction sites, ensuring maximum user protection
- HEPA Filter captures 99.97% of particles greater than 0.3 micron
- Integrated LED lighting illuminates the work area in low light conditions
- The locking switch positioned on top ensures maximum comfort of use over long periods
- Cyclonic action allows debris to be directed away from the filter, ensuring maximum suction performance
- Replaceable/washable filters ensure always clean filter for efficient suction over long periods

XR[®]

Characteristics Table :

18V voltage

Suction of water and dust CLASS L

Air flow max. 21.7 L/sec

Tank capacity 0.7 L

Suction max. 94 mbar

Weight 1.5 kg

Gencod 5035048738238

Standard Equipment : Without battery or charger, floor brush, wide tip with removable brush, round brush, flat sucker, extension cord, flexible hose, belt hook, flexible carrying bag.
