RS PRO

Flowable gap putty, 7W/m K

Stock No: **192-8250**

Technical Specifications:

Characteristic	Test Method	Result
Colour	Visual	Grey
Thermal conductivity W/m.K	ISO 22007-2	7
Thermal impedence $^{o}C\text{-}in^{2}/W$	ASTM-D5470	0.009

Features & Benefits:

- No flowing when set
- Maintains good contact with components
- Convenient for usage
- Good thermal conductivity

Applications:

- Communications equipment
- Automotive electronics
- Small office, and networking equipment
- Cooling modules

Available product size: 30cc

Approx dimensions: 120x38x38mm

Weight: 150g

Compatible dispense gun: 1938246
