

## R1800 – Hot Air Gun starter kit

**Get all quick jobs done with its 1800 W performance. 2 steps position switch, protection handle and thermal fuse included.**

The RAPID R1800 becomes the reference for those who search a great tool to do a great job. When it comes to repair cable terminals, turn on a barbecue, weed some herbs on asphalt or burn moss on concrete, the R1800 will be the ideal partner. Equipped with a protection handle, the work will be carried out safely. Its innovative design aligned with contained weight make it indispensable for the occasional DIY user. R1800 delivers constant airflow during the tasks, thanks to its efficient fan system. R1800 is available in attractive plastic case including several nozzles and spatulas to strip paint, shrink, de-solder, overlap and much more !
