

## Heavy Duty Tool Trolleys

New 1475K Series

# THE ULTIMATE TROLLEY ASSORTMENT

## Stronger, reliable and meticulously designed

The new 1475K Series tool trolleys are the result of a relentless pursuit for perfection. We offer a wide and improved range of heavy duty trolleys that can meet a wide variety of user needs. Available in different sizes, number of drawers, top materials and colours, the choice is yours. Finding your perfect match has never been easier!

### Lock & Go

No need to turn the key when moving the trolley! The unique Lock & Go system secures the drawers automatically when you close them.

### Superior Quality Paint

New shiny, elastic and scratch resistant paint, same type as used by car manufacturers.

### Enhanced Precision Wheels

Robust 125 x 50 mm wheels, two fixed and two swivelling with brakes. Good stability, easy to move and secure with non marking rubber.

### Drawers

Ball bearing slides. Full opening drawers. A load capacity of 45 kg per drawer.

### Aluminium Brushed Handles

Modern designed, easy clean and lightweight handles.

### Double Wall Frame

Drawers and slides work perfectly even if the frame gets damaged.

### T-Module System

Choose the trolley according to your preferences and pick modules from our T-Module System adapted to your specific needs.

**[ Static load capacity: 900-1100 kg ] [ Load capacity per drawer: 45 kg ]**
