

## FEATURES

- **Durable Material:** Constructed from natural rubber and styrene butadiene rubber for enhanced durability and resistance to wear.
- **Impact Resistance:** Provides superior protection against collisions, reducing damage to vessels and docks.
- **Standard Compliance:** Meets ANSI-ESD S20.20:2021 and REACH standards for safety and environmental compliance.
- **Versatile Length:** 2500 mm length offers flexibility for various applications and installation requirements.
- **Compact Design:** With a height of 60 mm and width of 52 mm, it fits seamlessly into tight spaces without compromising on protection.

## RS PRO Black D Fender, 2500 mm Length

RS Stock No: 688-164

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO D Fender is designed to provide robust protection for marine and industrial applications. Made from durable natural rubber and styrene butadiene rubber, it offers excellent resistance to impact and abrasion, ensuring long-lasting performance. Ideal for safeguarding docks, boats, and other structures, this D Fender is a reliable choice for preventing damage.

## General Specifications
