

Mains Powered Relay Base FH500R

FH500R

With single pole change-over relay

The FireHawk FH500R Relay Base is designed to replace the baseplate supplied with the 250 and 450 ranges of mains powered smoke and heat alarms.

- RELAY PATENTED FOR USE WITH THE FIREHAWK FH250 MAINS SMOKE ALARM & FH450 MAINS HEAT ALARM RANGES
- ALLOWS CONNECTED ALARMS TO ACTIVATE DOOR RELEASES, REMOTE SOUNDERS, FLASHING BEACONS OR CENTRAL WARNING PANELS AND CALL SYSTEMS
- MAINS POWERED
- LATCHING OPTIONS
- NORMALLY OPEN/NORMALLY CLOSED OPTIONS

Fast-Fix

- NEW **Fast-Fix** design simplifies fixing and wiring of the baseplate.
- NEW push fit wiring connection - fast and secure.
- Install the base first, then install the alarm later, after all the works have been completed, preventing contamination by dust, paint etc.
- Smoke and heat alarms share the same base allowing interchangeability.
- Dedicated and discrete entry for surface mounted trunking.
