

## FEATURES

- **Polyethylene construction:** Offers excellent chemical resistance and durability
- **1120 L absorbent capacity:** Provides substantial spill containment for enhanced safety
- **Compatible with single or double IBCs:** Versatile use for various storage needs
- **1450 mm length and width:** Accommodates large containers efficiently
- **Yellow colour:** High visibility for improved safety and compliance

## RS PRO Single Pallet, Polyethylene, 1120 L Absorbent Capacity

RS Stock No: 694-327

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO single pallet is designed for industrial environments, providing a robust and reliable solution for the storage and handling of intermediate bulk containers (IBCs). Made from durable polyethylene, it offers excellent chemical resistance and is ideal for use in warehouses and workshops. With a high absorbent capacity of 1120 litres, it ensures effective spill containment, enhancing safety and compliance in your facility.

## General Specifications
