

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **Compact Design:** With a length of 3/8 in and an outside diameter of 0.5 in, it fits easily into confined spaces.
- **Efficient Operation:** Reduces friction for smoother rotational movement, enhancing equipment efficiency.
- **Versatile Shaft Compatibility:** Suitable for shafts with a diameter of 0.24 in, offering flexibility in application.

RS PRO 3/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-155

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO 3/8 in Plain Bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, this bearing offers excellent durability and performance in various industrial settings. Its compact size makes it ideal for use in tight spaces, providing smooth operation and reducing friction.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.24 in

Mechanical Specifications

Length	3/8 in
Material	Sintered Bronze
Outside Diameter	0.5 in
