Plain Nylon Hex M8 x 60mm Set Screw

RS Stock No.: 292-681

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO nylon 6.6 set screws are a type of fastener and can be used in various fastening applications. Set screws are often used in engineering, product design and repair applications, often to keep a potentially moving part locked in place. The set screw works by passing through a threaded hole in one component and butting up tightly against the surface of a second part on the rear side

Hexagon Head Set Screw Options include:

292-631 - M8x16 mm
292-647 - M8x20 mm
292-653 - M8x25mm
292-669 - M8x30 mm
292-675 - M8x40 mm
292-681 - M8x60 mm
292-697 - M10x20 mm
292-704 - M10x30 mm
292-710 - M10x40 mm
