

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, making it suitable for demanding environments
- **1-1/4 in Length:** Provides a compact solution for space-constrained applications
- **1.37 in Outside Diameter:** Ensures compatibility with a wide range of housings
- **1.12 in Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration

RS PRO 1-1/4 in Sintered Bronze Plain Bearing

RS Stock No: 558-533

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, designed to provide reliable and efficient performance in various industrial applications. It is ideal for reducing friction between moving parts, ensuring smooth operation and longevity of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.12 in

Mechanical Specifications

Length	1-1/4 in
Material	Sintered Bronze
Outside Diameter	1.37 in
