

uvex K26 polo shirt men

article number: 89458

Polo-Shirt made from a high-functional and lightweight knitted fabric with a timeless design.

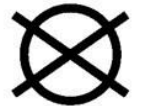

colour way: petrol

“T-shirts made from TENCEL® consist mainly of Lyocell, a natural, rapidly renewable ecological wood fiber which is not just extremely comfortable to wear but also reduces the build up of bacteria - and odours - in a natural way. This easy-to-care-for material is also very stretchy and lightweight, providing for optimum freedom of movement.”

Features:

- sustainable TENCEL® material with optimum moisture management
- button placket with 3 buttons
- high-quality embroidery on the chest and le
- Oeko-Tex Standard 100
