ERSADUR soldering tip, 20 mm

Ersa soldering tip with patented ERSADUR coating – designed for demanding industrial applications for continuous use.

The protection against corrosion and oxidation ensures a long service life for the tip.

Ersa offers a wide variety of soldering tips in different shapes and sizes for various soldering applications.

The soldering tip attachment (3IT1040-00, 3IT1045-00) allows the soldering tips to be changed quickly and easily by hand or with tweezers (0N544/SB), even when hot.

Technical data:

Soldering tip shape: Wick-Tip

Design: straight

Soldering tip width: 20 mm

Coating: lead-free

Accessories:

Tweezers for changing soldering tips (0N544/SB),

TIP REACTIVATOR (0TR01/SB),

TIP REACTIVATOR (0TR02/SB),

Soldering tip attachment, black (3IT1040-00),

Soldering tip attachment, green (3IT1045-00)

Suitable for:

i-TOOL soldering iron (0100CDJ),

i-TOOL NANO soldering iron (0120CDK),

i-TOOL PICO soldering iron (0130CDK)
